

Windows 8 Enterprise Evaluation Permanent Activator For W8 Build 9200

How to Activate Windows 8 Enterprise Evaluation for Free

Windows 8 Enterprise Evaluation is a trial version of Windows 8 that allows you to test the features and performance of the operating system for 90 days. However, after the trial period expires, you will need to activate Windows 8 to continue using it. If you don't have a valid product key or you don't want to buy one, you can use a permanent activator to activate Windows 8 Enterprise Evaluation for free. A permanent activator is a software tool that bypasses the activation process and makes Windows 8 think that it is activated. There are many permanent activators available online, but some of them may contain malware or viruses that can harm your computer. Therefore, you should be careful when choosing and downloading a permanent activator for Windows 8. One of the most popular and reliable permanent activators for Windows 8 is KJ_Starter. KJ_Starter is a program that can activate Windows 8 Enterprise Evaluation for w8 build 9200, as well as other editions of Windows 8, such as Pro and Core. KJ_Starter can also activate Windows XP, Vista, 7 and Server 2012. KJ_Starter is easy to use and does not require any installation or internet connection.

How to Use KJ_Starter to Activate Windows 8 Enterprise Evaluation

To use KJ_Starter to activate Windows 8 Enterprise Evaluation, you need to follow these steps:

1. Download KJ_Starter from [this link](#). You can also find other download links on [this website](#).
2. Extract the zip file and run KJ_121026.exe as administrator.
3. Click on the Windows 8 + Server 2012 button on the left side of the program.
4. Click on the Install Pirate Activation button on the right side of the program.
5. Wait for the program to complete the activation process. You may see some command prompt windows popping up during this process. Do not close them or interrupt them.
6. Restart your computer when prompted by the program.
7. Enjoy your activated Windows 8 Enterprise Evaluation!

Note: If you encounter any errors or problems during the activation process, you can try these troubleshooting tips:

- Make sure you are running KJ_Starter as administrator.
- Make sure you have disabled your antivirus or firewall before running KJ_Starter.
- Make sure you have closed all other programs before running KJ_Starter.
- If you get an error message saying "product key not found" or "slui.exe not found", you can try running these commands in an elevated command prompt (run cmd.exe as administrator):
slmgr.vbs -ipk NG4HW-VH26C-733KW-K6F98-J8CK4
slmgr.vbs -skms lunar21.no-ip.org:80
slmgr.vbs -ato
- If you get an error message saying "duplicate" or "slui.exe.log exist", you can try deleting

these files from your system32 folder:

C:\Windows\System32\slui.exe.log

C:\Windows\System32\slui.exe.bak

- If you get an error message saying "0xc004f069" or "0x8005403a", you can try running this command in an elevated command prompt:
slui.exe 0x29 0xc004f069
